Heavy-Duty PVC Waterpark Tubes

Tube Pro™ waterpark tubes are manufactured with our custom heavy-duty 30-40 gauge PVC and double welded vinyl seams to complete the rugged design. Our K80 PVC is fade resistant and works great for a variety of water activities because it withstands UV light and chlorine exposure, increasing tube longevity. Year round we stock our Custom Safety Blue, Transparent Clear, Translucent Blue and Yellow tubes in most sizes and rider configurations. Our Safety Blue and Transparent tubes mimic the color of the water to decrease visual distraction for lifeguards; increasing their focus on safe water activities. The subtle blue ink graphic with small forward directional arrow promotes a proper seated position for slide riding and is complimentary to all indoor and outdoor waterpark establishments. Tube Pro™ waterpark tubes meet industry safety standards and comply with pool and slide manufactures' size recommendations.

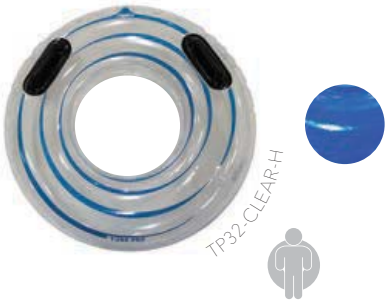
PRODUCT / DEFLATED SIZE	MODEL CODE
TP32 Single Rider / 36" (91 cm)	
Ideal for small children and general floating	
Clear	TP32-CLEAR-H
Clear with floor	TP32-CLEAR-HF
Transparent Blue	TP32-TRANS-BLUE-H
TP38 Single Rider / 42" (106 cm)	
Ideal for narrow lazy rivers and smaller pools	
Blue	TP38-BLUE-H
Clear	TP38-CLEAR-H
Transparent Blue	TP38-TRANS-BLUE-H
TP38D Double Rider / 42" x 69" (106 cm x 175 cm)	
Common size for pools, lazy rivers and slides	
Blue	TP38D-BLUE-H
Clear	TP38D-CLEAR-H
Transparent Blue	TP38D-TRANS-BLUE-H
TP44 Single Rider / 48" (122 cm)	
Most universal and widely used tube size	
Blue	TP44-BLUE-H
Yellow	TP44-WP-YELLOW-H
Clear	TP44-CLEAR-H
Transparent Blue	TP44-TRANS-BLUE-H

PRODUCT / DEFLATED SIZE	MODEL CODE
TP44D Double Rider / 48" X 76" (122 cm X 193 cm)	
Built for a comfortable, stable, safe ride	
Blue	TP44D-BLUE-H
Yellow	TP44D-WP-YELLOW-H
Clear	TP44D-CLEAR-H
Transparent Blue	TP44D-TRANS-BLUE-H
TP44D Double Rider with floor(s) / 48" X 76" (122 cm X 193 cm)	
Floor welded to inner diameter seam eliminates floor abrasion & provides stability for smaller riders	
Blue with front floor	TP44D-BLUE-HF
Clear with front floor	TP44D-CLEAR-HF
Blue with front & back floor	TP44D-BLUE-HFB
TP44T Triple Rider / 48" X 108" (122 cm X 274 cm)	
Blue	TP44T-BLUE-H

All Tube Pro™ single and multi-rider tube models feature strong double welded smooth inner seams. TP38 and TP44 tube models have an inflated inner hole diameter measuring 16" (40 cm). Our smaller TP32 models have an inner diameter of 14" (35 cm).

All Tube Pro™ waterpark tube model codes are based on inflated dimensions. Deflated dimensions are listed for comparisons.

Heavy-Duty PVC Waterpark Tubes



Standard Tube Pro™ waterpark tubes feature a single main air chamber with a small push-in valve and large heavy-duty rider support handles with finger grooves.

All Tube Pro™ waterpark tube models include circular PVC patches with urethane glue tube.

Premium & Custom Waterpark Tubes

All Tube Pro™ waterpark tube model codes are based on INFLATED dimensions. Deflated dimensions are listed for comparisons. Our premium heat welded overlap seam tubes will increase tube longevity and your guests will experience increased rider comfort while seated in the tube. The exterior pinch welded seam on standard waterpark tubes is the most problematic area for tube abrasion. The smooth exterior overlap seam of our premium line prevents exterior seam leakage maximizing tube life expectancy. Stock overlap seam tubes are made with heavy-duty 30 gauge K80 PVC vinyl, large support handles and 16" (40 cm) inner diameter hole with smooth inner seam. Custom colors and printing are available based on quantity orders and appropriate production and delivery lead times.

PRODUCT / DEFLATED SIZE	MODEL CODE
Premium TP44 Single Rider / 48" (122 cm)	
Best size for variety of water amenity designs and riders	
Blue	TP44-BLUE-H (OVERLAP)
Clear	TP44-CLEAR-H (OVERLAP)
Transparent Blue	TP44-TRANS-BLUE-H (OVERLAP)

Premium TP44D Double Rider / 48" X 76" (122 cm X 193 cm)	
Size ideal for a ride with a friend or keep a little one company	
Blue	TP44D-BLUE-H (OVERLAP)
Clear	TP44D-CLEAR-H (OVERLAP)
Transparent Blue	TP44D-TRANS-BLUE-H (OVERLAP)

Custom Tarpaulin Tubes

Custom tarpaulin tubes utilize heat welded or glued overlap seams and are constructed from heavy-duty 40 gauge PVC or higher durometer material with added fabric scrim. Reinforced webbing handles are glued to tube top. Minimum quantity and lead times are required for all custom tubes.

Custom PVC Colors & Graphics

Printing your waterpark logo on tubes is a great way to distinguish your waterpark brand and create a lasting memory for your guests. Custom printing a sponsorship logo can also help subsidize the tube cost.

All Tube Pro™ waterpark tube model codes are based on inflated dimensions. Deflated dimensions are listed for comparisons.

Premium & Custom Waterpark Tubes

TP44-CLEAR-H (OVERLAP)

Tube Pro™ overlap seam tubes utilize a larger ¾" quick inflation/deflation safety valve that is recessed and has a tamper resistant tightening slot.

Custom TP44 Single Rider

TP44D-BLUE-H (OVERLAP)

Custom TP44 Single Rider

Custom TP38 Single Rider

All Tube Pro™ graphics on transparent tubes are printed on the inside of the PVC preventing ink wear with usage.

Custom TP44 Single Rider

All Tube Pro™ waterpark tube models include circular PVC patches with urethane glue tube.

Multi-Rider & Specialty Waterpark Tubes

All Tube Pro™ specialty and multi-rider waterpark tubes are constructed from superior heavy-duty 30-40 gauge thick K80 PVC material. The Tube Pro™ specialty waterpark tubes are built to handle serpentine corners, plunge down pitches and stability around a waterslide bowl. All tube styles are outfitted with large heavy-duty rider support handles. Finger grooves on the handles are great for gripping when sliding down waterslides, are ergonomically placed for a comfortable riding position.

PRODUCT / DEFLATED SIZE	MODEL CODE

Triangle Waterpark Tube / 58.5" x 62" (148 cm x 157 cm)
54" x 57" (137 cm x 145 cm) inflated outer dimensions
Single main air chamber with small push-in valve
30 gauge K80 PVC vinyl

PRODUCT / DEFLATED SIZE	MODEL CODE

Quad Waterpark Tube / 78" X 78" (198 cm X 198 cm)
76" x 76" (193 cm x 193 cm) inflated outer dimensions
Single main air chamber with recessed safety valve
40 gauge K80 PVC vinyl

Blue	TP-QUAD-BLUE-H
Blue smooth overlap seams	TP-QUAD-BLUE-H (OVERLAP)

TP50X30 Single Rider Mattress / 53" x 35" (135 cm x 90 cm)
Ideal for fun in wave pools and lazy river floats

Blue	TP50X30-BLUE
Clear	TP50X30-CLEAR

Custom PVC Shapes & Designs

With proper delivery lead times and order quantities, we regularly make custom shapes, designs and alternative inflation valves. Optional "bullet" style, backrests and extra handles can be easily added upon request.

Stock & Custom Printing

All Tube Pro™ stock & custom printing on clear water tubes is performed on the inside of the PVC preventing ink wear with usage.

All Tube Pro™ waterpark Tube model codes are based on inflated dimensions. Deflated dimensions are listed for comparisons.

Multi-Rider & Specialty Waterpark Tubes

TP-QUAD-BLUE-H

All Tube Pro™ waterpark tube models include circular PVC patches with glue tube. Urethane glue helps seal problematic hard to patch seam areas. PVC tube patches are circular in shape, and the same color and material as the tube, for a professional repaired look and increased longevity.

TP50X30-CLEAR

Custom Triangle Triple Rider

Custom TP44D Handle Design

Custom TP44D Bullet Design

Custom TP44 Backrest & Cup Holder

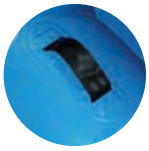
Waterpark Rafts

Tube Pro™ Rafts are constructed from superior heavy-duty whitewater rafting PVC tarpaulin material. The raft top is comprised of 31 oz. 1000 denier PVC, and the bottom is made with extra heavy 40 oz. 1000 denier reinforced PVC. Our higher sidewalls further protect against abrasion when banking on serpentine corners. Having a solid black bottom ensures the rafts will be detected by sensor gates at the start of the slide. Two inch thick buoyant closed-cell foam is enclosed in the reinforced raft bottom floor. The waterproof foam core helps cushions bumps when traveling down the slide, in addition to stabilizing the raft during sudden plunges in slide pitch. The self-bailing raft floor fosters stability and allows users to experience the sensations of getting wet! Eight to sixteen upper and lower heavy-duty sewn webbing support handles allow for multiple gripping locations making it easy for all sizes of riders to secure their seating position.

PRODUCT / DEFLATED SIZE	MODEL CODE
Round Waterpark Rafts	
2-4 Riders - 68" (173 cm)	TP68-R-BLUE
3-5 Riders - 78" (198 cm)	TP78-R-BLUE
4-6 Riders - 96" (244 cm)	TP96-R-BLUE

PRODUCT / DEFLATED SIZE	MODEL CODE
In-line Waterpark Rafts - 3 Riders	
98" x 41" (249 cm x 104 cm)	TP-INLINE-98X41
102" x 41" (259 cm x 104 cm)	TP-INLINE-102X41

Waterpark Rafts



TP78-R-BLUE

All Tube Pro™ rafts feature a H3 raft inflation valve which allows for easy inflation from typical whitewater rafting or tube inflators.

If repairs are needed urethane glue helps seal problematic hard to patch seam areas. Raft patches are circular in shape in the same color and material as the raft, for a professional repaired look and increased longevity.

TP-INLINE-102X41

All Tube Pro™ waterpark rafts include circular patches with urethane glue tube.

Mat Racers & Mat Sliders

Tube Pro™ slide mats are North American made and simply the best on the market! Our high density polyethylene handles and snaps are custom designed, injection molded and CNC cut. Four large snaps secure each left/right handle plate to prevent pivoting through the foam. The non-slip, vibration reducing honeycomb hand grips allow for a comfortable feel and to ensure maximum longevity. Mat racer and mat slider foam is waterjet cut with an assembled length of 54" to 62" (135 cm to 157 cm). The foam is made in blue 1" closed-cell cross-link polyethylene. Alternate sizes and colors are available with appropriate lead times and quantities.

PRODUCT / ASSEMBLED SIZE	MODEL CODE

- Black

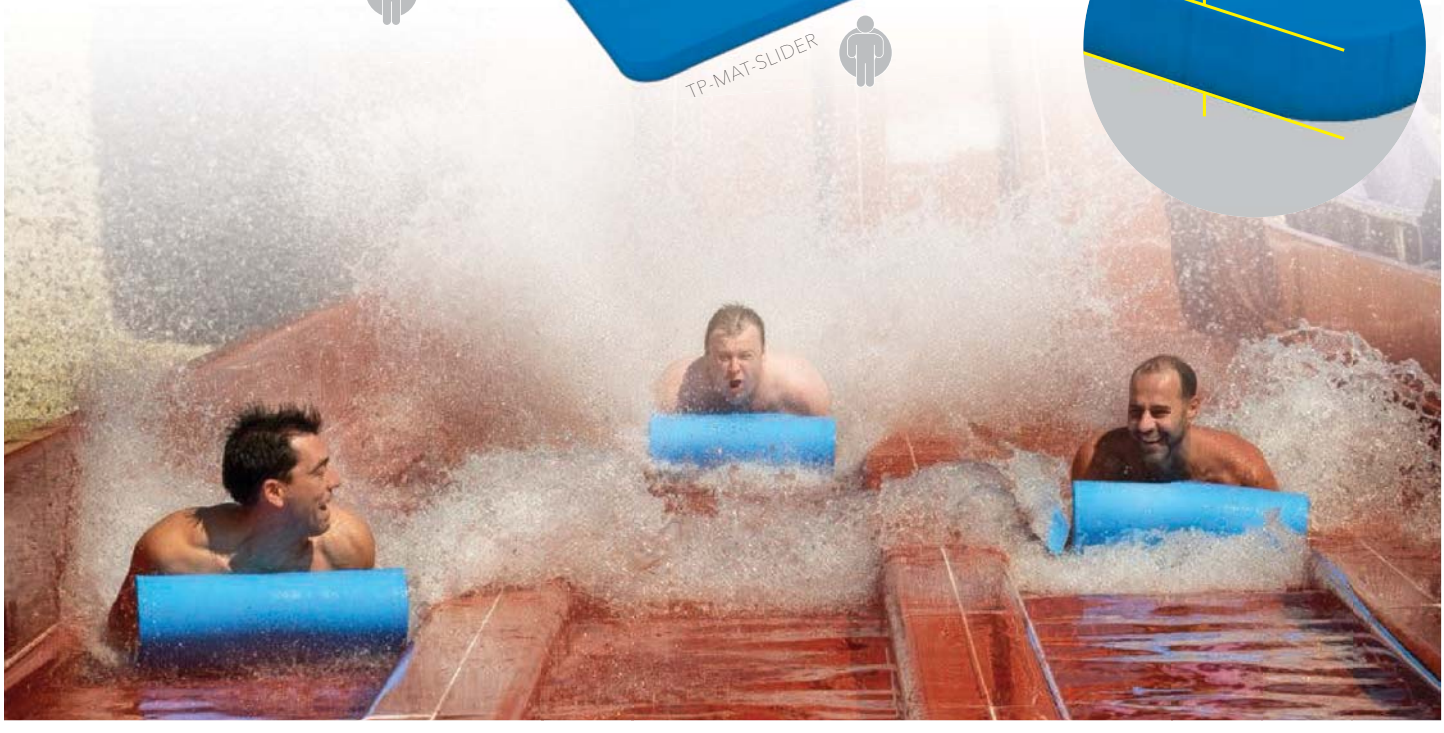
PVC Mat Cover Options

Tube Pro™ Mat Slider covers are made with PVC coated 1000 denier polyester material. PVC material is available in multiple colors and sewn handle options.

Mat Racers & Mat Sliders

TP-MAT-RACER

TP-MAT-SLIDER



All Tube Pro™ mat racers and mat sliders are made in North America.

Custom Floats & Safety Padding

Take advantage of our designing, cutting and sewing expertise for your waterpark safety padding and cover needs. All Tube Pro™ padding is North American made from our custom PVC closed-cell foam which is great for impact absorption and is 100% waterproof. Pad covers are made using 1000 denier PVC coated material that is sure to withstand repeated abrasion and will look great for years of outdoor exposure. Available in a multitude of bright color options for maximum visibility.

Stock Colors: Red, Blue, Green, Yellow, Orange, Black

Pole & Post Pads
Full wrap-around designs feature a secure Velcro closure for 360° coverage and streamline look. Common in high traffic areas such as lily pad walks, water play features and structure/frame supports.

Lily Pad Tubes
Tube Pro™ custom inner tubes and coverings feature a center tie system to align and secure to pool bottom offering a economical solution to traditional foam molded lily pad walks.

Inflatable Barriers
Tube Pro™ custom floating barriers can be made to any size specification and/or anchored together to create lane dividers and distinct areas safely directing the flow of people.

Company Overview

Tube Pro Inc. is a Canadian company with state of the art manufacturing and distribution facilities located in Waterloo, Ontario,Canada. Tube Pro™ manufactures the highest quality snow tubes, river tubes, waterpark tubes, sewn padding and covers for snow tubing, ski resorts, canoe liveries, river tube outfitters and waterpark resorts worldwide. As a family owned and operated company, we endorse and support safe fun family activities and recreation.

RIVER

Offering an extensive line of heavy-duty PVC and rubber river tubes, covers and custom features such as logos, seats, pockets and links, Tube Pro™ certainly has a tube product for you! We offer tubes designed for all river conditions and we design our tubes with efficient capacity and tube/ trailer transportation in mind.

WATERPARK

Manufacturing superior quality waterpark tubes using advanced 30-40 gauge K80 PVC; our tubes are very abrasive resistant for the perfect ride down your slide, lazy river or wave pool. In addition, our heavy-duty tarpaulin PVC rafts and North American made slide mats will live up to your expectations at a very economical price point.

SNOW

Tube Pro™ is the industry leader in snow tube manufacturing. We have produced our famous hard bottom snow tubes for almost 20 years, revolutionizing the industry and setting the standard in quality and product longevity. Our focus on safety has led to the development of countless safety initiatives. Call us today to experience our wealth of knowledge and design in the tubing & padding Industry!

PADDING

Tube Pro™ Safety Padding is made to last and withstand the harshest of outdoor environments. Keeping with our tradition of using the best materials available, all stock models are made using our custom blend of closed-cell waterproof foam and durable pad covers come in a multitude of colors. Our Safety Padding experience extends to a variety of recreational, commercial and automotive industries to name a few.
